

At McNeely Family Dentistry, our patients' safety and health is our number one priority. We have been monitoring information from public health officials regarding COVID-19 and maintaining stringent protocols within our facilities for the highest standards of cleanliness and sterility.

The American Dental Association and the North Carolina Dental Association has recommended that all dental offices postpone routine and non-emergent dental care to help control the COVID-19 virus pandemic.

McNeely Family Dentistry is following the recommendation of the agencies and will postpone all routine and non-emergent dental treatment for a later date. Our office will still be open to treat emergencies and post-operative complications by appointment only.

Any patients that are currently scheduled at our office through April 3rd and possibly beyond, will be rescheduled. If you have a dental emergency or concern, please call our office during business hours so we can schedule you for an evaluation and treatment. Our office hours may be altered throughout the week. If you reach a voicemail, please leave a message and someone will return your call as soon as possible. If you have a dental emergency after hours, please call the doctor on call whose number will be listed in our voicemail.

Thank you for your patience and understanding during this critical time.
